What's new in Fifa 22:

- **A new lineup for Brazil. Saúl, Neymar, Oscar, Thiago Silva, Willian, Willian - if they were to play a 12-game season. All these global stars duke it out - live, on-field, with the FIFA team of the year! - as Head-to-Head modes are included.**

-
- **The first FIFA campaign to have two online leagues, split across a total of 30 matches. Every team face both the other 23 teams in the other league to establish their spot in the world ranking**
 - **FIFA, the World's #1 FIFA game: with improved textures and gear for players, cards, and clubs. The number of stars, for example, has been multiplied with user-tracked data. This means that more stars are now attainable.**
 - **FIFA in Motion, the new motion-based gameplay debuting in FIFA 22. Real football stars, such as Cristiano Ronaldo, Neymar, Lionel Messi, and others appear in highly realistic, hyper-detailed, and interactive FIFA motion-capture suits. The helmet, boots, and gloves emit heat when the player is sprinting, taking a ball, and performing various actions. Players make contact and collide when engaging in physical challenges, and players in the game react to such challenges and collisions to create sport-like, realistic movements.**
 - **Complete accuracy when controlling players and objects. Every action is simulated in the most realistic way, and every ball, every cross, every tackle, every goal, every assist, every win - the world of football now happens in FIFA on a microscopic level.**
