The retrospective study of the long-term results of the treatment of 142 patients with benign prostate hypertrophy, detected by urologist, showed the following results: the transurethral resection of the prostate (TURP) in the first place, followed by the transvesical prostatectomy or by electro-impulse therapy as a result of the poor social conditions of the patients. In general the localised prostate cancer was neglected. A more detailed study of the patient's complaints, quality of life and the morphology of the resected tissue showed the resection to be unsatisfactory, as the effect, for physiological reasons, even if the quality of the tissue became and remained stable. This invention relates to the filling of pressurized containers

such as bottles or cans, and more specifically to the filling of containers with carbonated beverage or other beverages. The filling of bottles with carbonated beverage by means of a filling machine is widely known. Pressurized containers which may be filled via a filling machine are also known. Such pressurized containers are used, for example, in the packaging industry in connection with the packaging of ready-to-drink beers, and may be used in connection with the bottling of beer or other beverages. Such containers are known, for example, from FR 2,074,163 and FR 2,

Orbit is the latest iteration in the popular Tower Offense series. This time around, you are one of the many colonists on a non-orbital planet! You and your colony ship have crash landed on Tarkus, a planet with a 99.9% chance of becoming a precious resource. Contain, harvest, and build upon the remaining 0.1% of the resource-rich planet and prevent any nasty surprises from hostile aliens and shifting landscapes. With a plethora of upgrades, over 20 units, 3

game modes, and 4 difficulty levels, there are endless possibilities in Orbit. KEY FEATURES:

- Play as many different colonists in a procedurally generated sandbox with extremely randomized planets.
- Upgrade your colony ship and units with unique building and research abilities.
- Discover what's around every corner of each planet.
- The cast of characters in Orbit is full of so many cute wagons.
- Never run out of planets to explore.
- Play as the Sun, Moon, Planets, and as Nibhael, a mysterious source of power that randomly appears in planets, and sometimes in your colony ship.

Curious and brave pioneers? Try out Orbit!

What's new:

fjorden, Troms Gemlandsfjorden (lit. the Gem Lake fjord) is a fjord located in Southern Troms county, Norway. It stretches from Prestnordhaug, near the border with Sweden, to Hellvik, in the northwest. The north side of the fjord, between the villages of Prestvann and Hellvik, is relatively broad, and the land is low and flat. The south side, which is the part through which the fjord flows, is narrow, with high mountains all along it, with a valley in the middle. The north end of Gemlandsfjorden is connected to the Moskenesfjorden and the Nordkappfjorden at Norddalsnes. In the south it is connected to the Saltstraumen between Storfjord and Trondheimsfjord via the Sandesundet strait between the Norwegian mainland and the island of Tromøya. The high mountains of the south are the highest in southern Troms. The most notable mountain is Nordkuppen, which reaches a height of above sea level on the southernmost tip of Tromsøya. Geography Gemlandsfjorden is located at the southern end of the Vesterålen sound. It is long from north to south and has an average depth of in the middle. The fjord has a total area of. The largest island to the west of the fjord is Skaftshaug, which stretches from Voie () to Landvik (). The main villages located along the fjord are Hellvik, Vogelsby, Årnå, Storfjord, Ogdal, Skaptafjord and Prestvann. Name The fjord is named after the Gem River, which passes through the Vensfjorden valley and runs into the Gemliden fjord (now known as Storfjord) in the north. In Norse times the fjord was called Velandsfjorden, or more likely Felsfjorden. The earliest form of the name from about 750 is Velandsfjordar, meaning "the Velands fjord". A later name for the fjord, from the 12th century, is Gamsfjord. The current form, Gemlands
